

### **Summary**

A plectrum ( 1 ) is proposed vor striking strings whith at least two striking edges ( 11, 13 ) for striking several strings at the same time, and with at least two individual plectrums ( 3, 5 ) connected via a connection element ( 7, 7', 7''). This is distinguished by the fact that the connection element ( 7, 7', 7''), can be adapted to the index finger of the hand for holding the plectrum ( 1 ) with one hand.
